

sparkeology™

Sparkeology is the new frontier.

From our first conversation you'll recognize that we're a different kind of furniture company. Dedicated to developing uncomplicated, long-lasting, and sometimes playful solutions for public spaces, we take a thoughtful approach to furnishing libraries, higher education, lounges, lobbies, restaurants, or any kind of community hub. Wherever people gather to meet, study, work, research, or surf, conditions are prime for Sparkeology.

Sparkedology is in tune with the universe.

Our furniture is created with materials and processes specifically designed to be easy on the environment. We're also attuned to other groups looking for ways to do the right thing, and we'll return a portion of our proceeds to help you make good things happen.

A LEAF OF GRASS IS NO LESS THAN THE JOURNEY-WORK OF THE STARS. *

Sparkeology is the stuff of super heroes.

We've developed a way to wow our customers, and every day is another chance to save the day. No request is too big, and no customer too small. Going above and beyond the call of service is in our DNA, and you can count on us to give every story a happy ending.

Sparkeology follows the law of simplicity.

Our straightforward method shows in everything we do, from how we design the product, to how you order it, to how easy it is to talk to us. We aim to uncomplicate your day by being honest, real, and transparent.

Sparkeology has a heart.

Standing on the shoulders of our sister company, Worden, has given us a perfect vantage point to start something new. From here, we can see over the fence to what's next, blending 60 years of furniture manufacturing with the clever innovation that is Sparkeology.

Need some space to think?

Pick and choose your favorite elements to plan study areas in the form of a cross, pinwheel, row, or...you tell us! Option shown features Stu, Ty, and Al.

Stu: Study, work, interview, lunch... this little workhorse does any job you ask of it. With its easy-sliding sled base, it can go anywhere and everywhere you do.

Ty: Just like it sounds, this is the piece that ties it all together. Use it to connect or unify a row, a pod, or one- or two-sided spaces. It's also a hub for power and can be ganged for long runs of study stations.

Al: It's classic, lightweight, and incredibly durable. Spec it short, tall, with upholstery, metal, or wood, and you'll be sitting pretty wherever you go.

Expecting a crowd?

Mix Ty-Pad with Phil in a display/lounge area or pull Pete, Flip or more Bens into the mix to make everyone feel welcome. Or introduce two Ty-Pads with Ben face to face to create an instant booth with room for the whole gang.

Ty-Pad: A true multi-tasker, Ty-Pad links and defines space just like Ty, but with a comfy built-in seat back. Link it up with a Ben, and you've got an instant booth that works well in either rows or clusters.

Ben: Match it up with Ty or drop one anywhere you want to create easy, short-term seating for one or a bunch.

Phil: Displays your monitors, collections, books, programs, or graphic messages/images. Make it what you need. We've got a flexible, easy-to-configure display solution for you.

Easy does it.

With so many compatible options to choose from, it couldn't be simpler to say welcome, come sit a while with me. Shown here with Manny, Pete, and Flip, or multiply the possibilities by adding Ben or Ty-Pad.

Flip: How can you resist this? It's a table, a stool, a resting place for your bag. Strong and lightweight, it's made to flip upside or down. And we think you'll flip for it.

Pete: Short? Tall? Circular, square, rectangular? Paired with our resin top and your choice of base colors, this table is just right for dressing up or everyday use.

Manny: Ahh, the ottoman. Sturdy steel bases matched with durable fabrics make this a must-have for comfy seating or an inviting lounge.

Sparkeology can change your perspective.

It's amazing what possibilities you can see just by looking at things in a whole new way. At Sparkeology, we see a less complicated, more agile, more satisfying, and even more fun way to get things done. We'd love nothing more than to share that view with you.
