

# Sparkeology

SPACE 8-7046

**Sit back, relax, and recharge.** The Sylvie chair is simply sublime, with clean lines and elegant, geometric proportions. The metal legs are available finished in pewter, white, or black; upholster in any fabric you wish. Optional power outlets allow you to plug in and tune out. Pair the seat with the charming Flip, designed by Valerie Schmieder and Scott Sikkema. Right-side up, Flip is a sturdy stool or side table; turn it over, and the translucent resin shelf provides convenient storage space. Measuring 20 inches high, 16 wide, and 11 deep, its metal body can be finished to match the chair legs.
