PRODUCT

WALLY

DIMENSIONS

23.66W X 16D X 96.25H

SPECIFICATIONS

The Wally is an assembly of two pieces; (1) base weldment and (1) top tier weldment. The base shall be constructed of a ¼" thick cold rolled steel plate and 10" high steel shaft to accept top tier weldment. The top tier weldment is constructed of ¾" diameter cold rolled steel tube and 5/6" diameter solid cold rolled steel wire. The top tier weldment is divided into (5) equal tiers with extra space on the base tier to keep signage off the floor.

This unit is shipped in two pieces.
